

Technical Officer

Acrux is a dynamic and successful ASX listed Australian pharmaceutical company developing and commercialising a range of patient preferred and generic products for the global market. Seeking a strong team player, Acrux seeks a Technical Officer who will report to the Technical Affairs Manager and will primarily support the company's development programs in a timely and effective manner.

The Technical Officer will assist in all aspects of the GMP facility activities and process all laboratory based orders. The Technical Officer will have responsibilities in the following areas:

- processing assigned orders using MYOB
- collating all documentation associated with shipment, purchase, storage of materials and equipment
- ensuring material inventories are maintained to enable manufacture and shipment of clinical trial materials in a timely fashion.
- supporting the Technical Affairs Manager with smooth operation and maintenance of the GMP facility, sampling of GMP materials and Vendor Assurance documentation
- providing administrative support across the Technical Affairs function

The ideal candidate will possess a relevant Science degree with 5 to 7 years experience in working in a busy GMP laboratory.

The successful candidate will possess excellent communication skills and practical abilities. Strong organisational skills and attention to detail whilst able to multi-task and prioritise. The key to this role will be your flexible "can do" attitude, excellent work ethic and initiative whilst working autonomously or as part of a team.

Acrux offers a dynamic environment that fosters a work culture emphasising teamwork with a commitment to attract and retain highly motivated and qualified people. The working environment at Acrux is one that embodies our vision and values, celebrates diversity of background and thought, and supports a balance of professional and personal needs.
