

Position Vacant Scientist II (Analytical)

AcruX is a dynamic and successful ASX listed Australian pharmaceutical company developing and commercialising a range of patient preferred and generic products for the global market. Seeking strong team players, AcruX is seeking a Scientist who will support the company's development programs in a timely and effective manner.

The **Scientist II (Analytical)** key duties will include developing and validating analytical methods. The successful candidate will have responsibilities in the following key areas:

- Develop and validate analytical methods for drug product stability studies and other studies to support AcruX pharmaceutical development programs
- Assist in ensuring adherence to pharmaceutical regulatory requirements throughout the product development, quality control (QC) and stability programs as required
- Perform and ensure work is performed to a high quality work standard and in accordance with Good Laboratory Practice (GLP), Good Manufacturing Practice (GMP) and required timeframes
- Assist with research and development studies
- Undertake manufacturing and environmental monitoring activities as required
- Assist with laboratory maintenance and calibration, logistics, quality and continuous improvement activities as required.

The ideal candidate will possess relevant tertiary qualifications along with proven experience in the analysis of pharmaceutical or chemical products and proficient in the use of scientific instrumentation, in particular use of HPLC system, GC systems and Waters Empower™ software. Candidates with experience in Mass Spectroscopy is desired.

The successful candidate will possess excellent communication skills and practical abilities. Strong organisational skills and attention to detail whilst able to multi-task and prioritise. The key to this role will be your flexible "can do" attitude, excellent work ethic and initiative whilst working autonomously or as part of a team.

AcruX offers a dynamic environment that fosters a work culture emphasising teamwork with a commitment to attract and retain highly motivated and qualified people. The working environment at AcruX is one that embodies our vision and values, celebrates diversity of background and thought, and supports a balance of professional and personal needs.
